

New!

FSA Debit Card Reader

2

Swipe your debit card. Sometimes a \$30 pre-authorization charge will be charged to your card just like at some gas pumps.

1

Locate the machine on the wall near the old light switch.

3

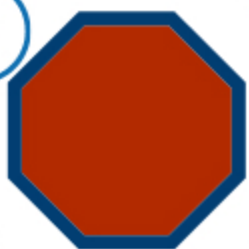

Once you swipe your card, the lights will come on like normal. If you have a chipped card you can simply place it on the upper face of the machine to authorize it.

4

Ride for as long as you want and enjoy the lights.

6

Push the "end" button on the card reader to turn off the lights when you are done.

5

Times will be rounded up to 30 minutes, with each 30 min increment costing \$7.50.

7

When you finish and press the "end" button, your time will be charged to your card.
